SUBJECT INDEX

Abuse, child
  child labor in Jordan, health hazards and risks for, 140–147
  children's drawings in assessment of, 284–285
  Munchausen syndrome by proxy, 174–180
Academics, *see* Education, nursing
Accidental injuries
  teen deaths due to, in South Korea compared with U.S., 412
Activity, physical
  in adolescents whose parents have premature coronary heart disease, 159–168
Acute lymphocytic leukemia, childhood, 89–92
  clinical presentation, 89–90
  CNS therapy, 91–92
  differential diagnosis, 90
  maintenance, 91
  postinduction therapy treatment assignment, 91
  remission induction, 90–91
  treatment, 90
Acute myelogenous leukemia, childhood, 92–94
  classification, 92
  clinical presentation, 92–93
  differential diagnosis, 93
  postremission therapy, 93
  prognosis, 93
  treatment, 93
Admissions, hospital
  of adults with childhood-acquired conditions to pediatric hospitals, 303–304 *(Editorial)*
Adolescents
  aggression in, Cox's interaction model to assess and prevent, 30–35
  communication approaches to parent-child conflict from young adolescence to young adult, 244–256
  cross-cultural comparison of child health in South Korea and U.S., 409–415
    deaths due to accidents, suicides, and homicides, 412

Adolescents (*Continued*)
teen pregnancy, 412–413
eating disorders in, inpatient evidence-based program for, 75–80
from intact and divorced families, anger, anxiety, and depression in, 267–273
pregnancy in, qualitative research on, 397–408
psychologic and physiologic factors in adolescents with cystic fibrosis after lung transplantation, 216–220
stage-based interventions for low-fat diet with middle school students, 36–45
with parents who have premature coronary heart disease, variables influencing physical activity in, 159–168
youth resilience framework for reducing health-risk behaviors in, 379–388
Adoption
effects of proposed reforms of child welfare system on children with special needs, 344–346
Adults, with childhood-acquired conditions
admission to pediatric hospitals, 303–304 (*Editorial*)
Aggression
in adolescents, Cox's interaction model to assess and prevent, 30–35
Alcohol use
relationship of health risk behaviors and fear in an urban 7th grade class, 187–194
American Indians
urban, family caregivers' perceptions of barriers to childhood asthma management, 2–11
Anemia
as side effect of childhood cancer treatment, 116–117
Anger
in adolescents from intact and divorced families, 267–273
Anorectal malformation
effect on family when child is born with, 423–432
Anorexia nervosa
inpatient evidence-based program for, 75–80
Anthropometric indicators
of failure to thrive, 52–59
Anxiety
in adolescents from intact and divorced families, 267–273
in adolescents with cystic fibrosis after lung transplantation, 216–220
Asthma, childhood
evaluation of websites for parent and patient education on, 389–396
Asthma, childhood (*Continued*)
parents' perspectives of asthma crisis hospital management in infants and toddlers, 233–243
urban American Indian family caregivers' perceptions of barriers to management, 2–11
Atopic disorders
incidence of in infants, and physiologic and behavioral responses to stress, 257–266
Attachment theory
parents' perspectives of asthma crisis hospital management in infants and toddlers, 233–243
Autistic spectrum disorder
parents' detection of early signs of, 433–439

Barnes, Dr. Corinne
in memoriam, 157–158
Barriers, to health care
urban American Indian family caregivers' perceptions of barriers to childhood asthma management, 2–11
Biochemical genetic disorders
survey of mothers of children with, 181–186
mitochondrial disease, 181–182
phenylketonuria, 182
Body imaging
in evidence-based program for eating disorders, 75–80
Bone cancer
osteosarcoma, in children, 101–102
Book and media reviews
Clark: *A Clinical Guide to Inherited Metabolic Diseases*, 2nd ed., 349
Dosser et al: *Child Mental Health: Exploring Systems of Care in the New Millennium*, 69
Peurrung: *Living with Juvenile Diabetes: A Practical Guide for Parents and Caregivers*, 139
Robinson: *Clinical Decision Making: A Case Study Approach*, 286
Wyllie & Hyams: *Pediatric Gastrointestinal Disease: Diagnosis and Management*, 2nd ed., 208
Brain tumors
in children, 96–98
Bulimia nervosa
inpatient evidence-based program for, 75–80
Burnout
mental health of physicians specializing in child neurology, 70–74

Cancer, *see* Pediatric oncology nursing
Carative needs
in Watson's theory of human science and human care, 64–68
Cardiac dysfunction
late effects of childhood cancer therapy, 128
Caregivers, family
father-child teaching interactions, and father involvement in caregiving, 46–51
in postdivorce families caring for child with cystic fibrosis, 332–343
mothers' work parenting young children with type 1 diabetes, 21–29
urban American Indian caregivers' perceptions of barriers to childhood asthma management, 2–11
Central venous access devices
management of infection related to, in childhood cancer treatment, 115–116
Chemotherapy
for childhood cancer, 103–105
Child abuse
child labor in Jordan, health hazards and risks for, 140–147
children's drawings in assessment of, 284–285
Munchausen syndrome by proxy, 174–180
Child Health Policy column
child welfare system, effect of proposed reforms on children with special needs, 344–346
obesity, childhood, policy issues in 2003, 416–420
State Children's Health Insurance Program, 134–136
The President's New Freedom Commission on Mental Health, significance for children, 203–205
welfare reform, pediatric nurses' role in bridging the gap, 60–63
Child in the Community column
children's drawings in assessment of abuse, 284–285
hearing loss, universal screening of newborns for, 421–422
pesticides, poisoning children with, 347–348
sheltering homeless children, 137–138
teaching holistic child health promotion, 64–68
video games and children, 206–207
Child labor
in Jordan, health hazards and risks for abuse, 140–147
Child life specialist
collaboration between nursing and, 359–365
role in inpatient evidence-based program for eating disorders, 75–80
Child welfare system
effects of proposed reforms on children with special needs, 344–346
Child-Adolescent Teasing Scale (CATS) project
using school-based focus groups, 321–331
Childhood characteristics
in children who had colic as infants, 12–20
Children with Special Health Care Needs (CSHCN) programs, 227–228
Clinical Narrative column
clinical leadership in action, 441–443
Cognitive impairment
tool for pain assessment in nonverbal children with severe, 295–299
Colic
infants with, childhood characteristics of, 12–20
Collaboration
between nursing and child life specialist, 359–365
Communication
approaches to parent-child conflict from young adolescence to young adult, 244–256
Community
factor in reducing health-risk behaviors in adolescents, 381
see also Child in the Community column
Competence
and health-risk behaviors in adolescents, 383
Conflict, parent-child
communication approaches, from young adolescence to young adult, 244–256
Congenital anomalies
effect on families when child is born with anorectal malformation, 423–432
Connectedness
and health-risk behaviors in adolescents, 383–384
Coping strategies
and health-risk behaviors in adolescents, 383
comparison of fears and, in Nepalese school-age children and their parents, 305–313
Coronary heart disease
physical activity in adolescents whose parents have premature, 159–168
Cox's interaction model
to assess and prevent adolescent aggression, 30–35
Cross-cultural comparison
of child health in South Korea and U.S., 409–415
Cultural influences
comparison of fears and coping strategies in Nepalese school-age children and their parents, 305–313

Cyclosporine levels
psychologic and physiologic factors in adolescents with cystic fibrosis after lung transplantation, 216–220
Cystic fibrosis
mothers in postdivorce families caring for child with, 332–343
psychologic and physiologic factors in adolescents with, after lung transplantation, 216–220
Cytogenetic analysis
in childhood leukemia, 89

Deafness
childhood, genetic mutations causing, 421
Delayed sleep phase syndrome, 281
Depression
in adolescents from intact and divorced families, 267–273
in adolescents with cystic fibrosis after lung transplantation, 216–220
Developing countries
child labor in, health hazards and risks for abuse, 140–147
comparison of fears and coping strategies in Nepalese school-age children and their parents, 305–313
life span of peripheral intravenous cannula in an NICU in, 287–292
Diabetes, type 1
mothers' work parenting young children with, 21–29
Diets
stage-based interventions for low-fat diet with middle school students, 36–45
Disaster preparedness
for caring for children in terrorist attacks or natural disasters, 154–155
Distress
and health-risk behaviors in adolescents, 382
Divorce
anger, anxiety, and depression in adolescents from intact and divorced families, 267–273
mothers in postdivorce families caring for child with cystic fibrosis, 332–343
Drug abuse
infant risk assessment for prenatal drug exposure, 371–378

Ear infections
hearing loss in children with, 421–422
Eating disorders
evidence-based inpatient program for, 75–80
Education, nursing
vanishing pediatric nursing faculty, 1 *(Editorial)*, 294 *(Letter)*
Education, of parents and patients
evaluation of asthma websites for, 389–396
Emergency care
preparedness for caring for children in terrorist attacks or natural disasters, 154–155
Emotional regulation
in children who had colic as infants, 12–20
Endocrine dysfunction
late effects of childhood cancer therapy, 127
Erickson, Dr. Florence
in memoriam, 157–158
Ethically difficult care situations
in pediatrics, experience of male registered nurses in, 350–357
Evidence-Based Practice column
collaboration between nursing and child life specialist, 359–365
creating a halo traction wheelchair resource manual, 148–152
eating disorder inpatient program, 75–80
pain assessment in nonverbal children with severe cognitive impairment, 295–299
psychologic and physiologic factors in adolescents with cystic fibrosis after lung transplantation, 216–220

Faculty, nursing
shortage of, in pediatric nursing, 1 *(Editorial)*, 294 *(Letter)*
Failure to thrive
selection of growth parameters to define, 52–59
Families
anger, anxiety, and depression in adolescents from intact and divorced families, 267–273
connectedness of, in reducing health-risk behaviors in adolescents, 380
effect on, when child is born with anorectal malformation, 423–432
mothers in postdivorce families caring for child with cystic fibrosis, 332–343
urban American Indian caregivers' perceptions of barriers to childhood asthma management, 2–11
see also Mothers *and* Fathers
Fathers
father-child teaching interactions, and father involvement in caregiving, 46–51

Fear
relationship between health risk behaviors and, in an urban 7th grade class, 187–194
Fears
comparison of coping strategies and, in Nepalese school-age children and their parents, 305–313
Federal government
child welfare system, effect of proposed reforms on children with special needs, 344–346
childhood obesity policy issues in 2003, 416–420
health care policy for medically fragile children, 225–232
Supplemental Security Income (SSI), 226–227
President's New Freedom Commission on Mental Health, significance for children, 203–205
State Children's Health Insurance Program sponsored by, 134–136
Feeding rate
effect of music-reinforced nonnutrituve sucking on feeding rate of premature infants, 169–173
Feeling masks
in evidence-based program for eating disorders, 75–80
Focus groups
school-based, lessons learned from CATS project, 321–331
Foster care
proposed reforms of child welfare system, effects on children with special needs, 344–346
Fragile children, *see* Medically fragile children

Gastrointestinal tract
late effects of childhood cancer therapy on, 128
Gender
and health-risk behaviors in adolescents, 381–382
Gene therapy
for childhood cancer, 109–110
Genetic disorders
biochemical, survey of mothers of children with, 181–186
mitochondrial disease, 181–182
phenylketonuria, 182
Genitourinary dysfunction
late effects of childhood cancer therapy, 128–129
Gonadal disorders
late effects of childhood cancer therapy, 127
Growth
failure to thrive, selection of growth parameters to define, 52–59

Halo traction wheelchair
creating a resource manual for using evidence-based practice, 148–152
Head and neck
late effects of childhood cancer therapy on, 127–128
Health care policy
for medically fragile children, 225–232
see also Child Health Policy column
Health insurance
children without, cross-cultural comparison of in South Korea and U.S., 413
State Children's Health Insurance Program, 134–136
Health promotion
holistic, teaching children using Watson's theory, 64–68
Health risk behaviors
relationship between fear and, in an urban 7th grade class, 187–194
resilience framework for reducing in adolescents, 379–388
Healthy People 2010
nurses' role in meeting goals of, 223–224 *(Editorial)*
Hearing loss
late effects of childhood cancer therapy, 127
universal screening of newborns for, 421–422
Heart disease
physical activity in adolescents whose parents have premature coronary, 159–168
Hematopoietic disorders
as late effect of childhood cancer therapy, 129
Hematopoietic stem cell transplantation
for childhood cancer, 108–109
Hepatic dysfunction
late effects of childhood cancer therapy, 128
Holistic health promotion
teaching children using Watson's theory, 64–68
Homelessness
sheltering homeless children, 137–138
Homicide
teen deaths due to, in South Korea compared with U.S., 412
Hospitalization
parents' perspectives of asthma crisis hospital management in infants and toddlers, 233–243
world of play for hospitalized children, 209–214

Hospitals, pediatric
admission of adults with childhood-acquired conditions to, 303–304 *(Editorial)*
Humor, sense of
and health-risk behaviors in adolescents, 383
Hypothyroidism
late effects of childhood cancer therapy, 127

Immigrants, legal
consequences of Temporary Assistance for Needy Families (TANF) for, 62
Immunizations, childhood
cross-cultural comparison of in South Korea and U.S., 413
in children undergoing cancer treatment, 116
Immunologic disorders
as late effect of childhood cancer therapy, 129
Immunophenotyping
in childhood leukemia, 89
Immunosuppression
management of, as side effect of childhood cancer treatment, 113–115
Imperforate anus
effect on families when child is born with, 423–432
India
life span of peripheral intravenous cannula in an NICU in, 287–292
Indians, American, *see* American Indians
Individualized Numeric Rating Scale
for pain assessment in nonverbal children with severe cognitive impairment, 295–299
Infant mortality
in South Korea and U.S., cross-cultural comparison, 411
Infants
failure to thrive, selection of growth parameters to define, 52–59
father-child teaching interactions, and father involvement in caregiving, 46–51
low-birth-weight, in South Korea and U.S., cross-cultural comparison, 411
parents' perspectives of asthma crisis hospital management in, 233–243
physiologic and behavioral responses to stress, temperament, and incidence of infection and atopic disorders in, 257–266
premature, effect of music-reinforced nonnutrituve sucking on feeding rate of, 169–173
risk assessment for prenatal drug exposure, 371–378
Infants (*Continued*)
universal screening of neonate for hearing loss, 421–422
with colic, childhood characteristics of, 12–20
Infection
incidence of in infants, and physiologic and behavioral responses to stress, 257–266
management of, in childhood cancer treatment, 113–115
due to central venous access devices, 115–116
varicella, 115
Insurance, health
children without, cross-cultural comparison of in South Korea and U.S., 413
State Children's Health Insurance Program, 134–136
Intensive care unit, *see* Pediatric intensive care unit (PICU)
International pediatric nursing
child labor in Jordan, health hazards and risks for abuse, 140–147
cross-cultural comparison of child health in South Korea and, 409–415
effect on family when child is born with anorectal malformation, 423–432
ethically difficult care situations, male registered nurses in, in Norway, 350–357
life span of peripheral intravenous cannula in an NICU in a developing country, 287–292
mental health of physicians specializing in child neurology in Japan and U.S., 70–74
parents' detection of early signs of autistic spectrum disorder in Sweden, 433–439
world of play, for children in Israeli hospital, 209–214
Intravenous cannulas, peripheral
life span of in an NICU in a developing country, 287–292
Israel
world of play for hospitalized children in, 209–214

Japan
mental health of physicians specializing in child neurology in, 70–74
Jordan
child labor in, health hazards and risks for abuse, 140–147
Journal of Pediatric Nursing
acknowledgment of editorial board, reviewers, and column editors, 369–370

Kidney transplantation
clinical narrative demonstrating nursing leadership, 441–443
Korea, *see* South Korea

Labor, child
in Jordan, health hazards and risks for abuse, 140–147
Late effects
of childhood cancer therapy, 126–133
Leadership, clinical
clinical narrative demonstrating, 441–443
Legislation, *see* Child Health Policy column
Leukemia, childhood, 87–95
acute lymphocytic, 89–92
acute myelogenous, 92–94
biology of, 87
classification of, 87–88
clinical trials, 88
differentiation techniques, 89
etiology of, 88
Lewis Neurobehavioral Assessment Scale
psychometric testing of infant risk assessment for prenatal drug exposure, 371–378
Life transitions
meaning of, in adolescent pregnancy, qualitative research on, 397–408
Low-birth-weight infants
in South Korea and U.S., cross-cultural comparison, 411
Low-fat diets
stage-based interventions for middle school students, 36–45
Lung transplantation
psychologic and physiologic factors in adolescents with cystic fibrosis after, 216–220

Male registered nurses
experience of, in ethically difficult care situations in pediatrics, 350–357
Malnutrition
as side effect of childhood cancer treatment, 117–119
Medicaid eligibility
effects of Temporary Assistance for Needy Families (TANF) on, 62
Medical home concept
for children with special health care needs, 228–229
Medically fragile children
health care policy for, 225–232
Medically fragile children (*Continued*)
implications for nursing, 228–229
medical home concept for, 228–229
state Title V CSHCN programs, 227–228
Supplemental Security Income (SSI), 226–227
useful resources for, 230
Memorial tributes
Dr. Corinne Barnes, 157–158
Dr. Florence Erickson, 157–158
Mental health
of physicians specializing in child neurology, 70–74
President's New Freedom Commission on Mental Health, significance for children, 203–205
Middle school students
relationship between health risk behaviors and fear in an urban 7th grade class, 187–194
school-based focus groups, lessons learned from CATS project, 321–331
see also School-aged children *and* Adolescents
stage-based interventions for low-fat diet with, 36–45
Mitochondrial disease
survey of mothers of children with, 181–186
Morphologic analysis
in childhood leukemia, 89
Mortality
in South Korea and U.S., cross-cultural comparison
child, 411–412
infant, 411
teen deaths due to accidents, suicides, and homicides, 412
Motherhood
in adolescent pregnancy, qualitative research on, 397–408
Mothers
in postdivorce families caring for child with cystic fibrosis, 332–343
of children in the pediatric intensive care unit, stressors and stress symptoms of, 195–202
of children with mitochondrial disease or phenylketonuria, survey of, 181–186
parenting of young children with type 1 diabetes, 21–29
role in Munchausen syndrome by proxy, 174–180
single, consequences of Temporary Assistance for Needy Families (TANF) for, 62
Movement disorders
affecting sleep, 279–280
Mucositis
as side effect of childhood cancer treatment, 119–120

Munchausen syndrome by proxy
identification and diagnosis, 174–180
characteristics of perpetrator, 175–176
effective documentation in, 176–177
etiology, 175
legal responsibilities in, 176
management of, 177–180
methods of abuse in, 175
Musculoskeletal system
late effects of childhood cancer therapy on, 129
Music
effect of music-reinforced nonnutrituve sucking on feeding rate of premature infants, 169–173

Narcolepsy, 280–281
Narratives, clinical
clinical leadership in action, 441–443
Natural disasters
preparedness for caring for children in terrorist attacks or, 154–155
Nausea
as side effect of childhood cancer treatment, 119
Neonatal intensive care unit (NICU)
life span of peripheral intravenous cannula in an NICU in a developing country, 287–292
see also Pediatric intensive care unit
Neonates
universal screening for hearing loss in, 421–422
see also Infants
Nepal
comparison of fears and coping strategies of school-age children and their parents in, 305–313
